- Classroom Student Kit, *\$195 or 8 ETTC Hours*
- Classroom Coaching and Consultation available for *Phonics First®* Teachers

* Can be purchased at an additional cost, call 609-626-3866 to inquire

What is Phonics First®?

Once mastered, Brainspring's flexible and dynamic *Phonics First®* approach is both a diagnostic and remedial tool that significantly benefits not only the dyslexic student, but also students with a wide variety of learning needs.

Course participants learn about current reading and dyslexia research, rationale for multisensory instruction, the stages of reading development and the *Phonics First®* instructional elements necessary for delivering quality, multisensory, code-emphasis reading lessons for critical decoding and encoding skill development. Learning is structured, sequential, systematic, cumulative and success-oriented. Emphasis is on teaching reading to beginning, struggling, at-risk, dyslexic, ELL and learning disabled readers grades K-5.

Phonics First® Professional Development presented by Brainspring

Established in 1991, *Phonics First®* has been used successfully by thousands of trained educators in classroom, small-group and one-one-one settings with beginning, struggling, at-risk, dyslexic, ELL and learning disabled students.

Phonics First® and Dyslexia

With the advent of NJ's Dyslexia Legislation, schools are seeking ways to enhance teacher expertise in teaching reading.

- **Phonics First®** provides a supplemental curriculum that teachers at all tiers can follow with varied intensity to meet student needs;
- **Phonics First®** provides the necessary skill-base that all teachers need, regardless of which students they have, in order to effectively reach struggling and dyslexic learners;
- **Phonics First®** provides teachers with a common language and seamless approach between regular education and intervention support; and
- **Phonics First®** is a powerful, systematic, sequential and multisensory teaching tool used to differentiate instruction and reach ALL students.

Not ALL Orton-Gillingham Programs Are Created Equal...

Phonics First® is accredited at the Teaching and Instructor of Teaching levels by:

- IDA (International Dyslexia Association) **and**
- IMSLEC (International Multisensory Structured Language Education Council).
